WORK EXPERIENCE

Front-End Developer (React and Next)

Off-Carry

January 2023 - Running / Mirpur-10 Dhaka

- Worked alongside product managers to re-architect a multi-page web app into a single page web-app built in React resulting in a yearly revenue lift of $1.1M
- Built the logic for a streamlined ad-serving platform that scaled to our 100M users which improved the page speed by 14% after implementation
- Developed membership, event, and legal platform technology solutions, and automated internal processes.
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Developed a node.js server to validate membership and track digital badges being used, saving the company $22.5K.
- Generated $50K+ in annual ad revenue as a system administrator of a large network of websites.
- Reduced average valuation review time by 46%, and saved service providers an average of 84% due to click-fee reductions.
- Developed real estate valuation, analytics, and platform technology solutions as part of a 5-person team.
- Rebuilt 4-year-old SaaS application in React 15 and Redux with full user experience redesign to release a beta MVP in 8 months.
